An interview with

## **TOM LEWIS**

TOM LEWIS: Today's good score, you know, there were a lot of low scores out there, but I can imagine there's loads of high ones as well. It's the type of course that will reward you for good shots and also punish you for bad ones.

Today I hit a lot of good shots, especially coming in.

**Q. You coziered a long putt very close on the last. Is that indicative of the way you were playing on the greens today?**

TOM LEWIS: Yeah, definitely my putting today has been better than it has been for my whole year.

That's the difference between my normal 1-overs to 1-unders to my 6-under. Today on the greens I holed my good share of par putts, the ones that mattered and keep the round going.

I holed the birdie putts when I got them as well. Momentum was good with me.

On the last it was a treat to be able to dribble that one down to a couple feet.

**Q. Something about the nature of the greens here or just improved putting, full stop?**

TOM LEWIS: I don't know. I just freed it a little bit more today. I got few more putts past the hole.

If they're shot they're never in. Today I read the greens well, I got good pace on them, stroke felt good, so that all combined was a good day.

**Q. Thoughts coming into this event? Pretty safe and steady in where you are in the Race to Dubai, but could push on.**

TOM LEWIS: Yeah, you know, I came here kind of pretty comfortable. I never felt like I was troubled for my card or anything for next year.

It was really to do with getting some more confidence going into next year. I know the areas I need to work on. I'm looking forward working on

them, getting back home and working and grinding a little bit more.

It would be quite nice then to get two months off. If I didn't play these last two events I would've just been at home not doing much. I'm pleased with today because it gives me a little bit more confidence.

**Q. And yet if the result is particularly good you could kick on and have final series in mind.**

TOM LEWIS: Yeah, you know, I'm not going to look into that. It would actually be better for me if I had some time pout and attack the areas that needed to be addressed.

But I wouldn't complain if I was going to the next few events.
